(S. Degen, C. Biersart)

Sometimes I wonder what's going on in my brain
Sometimes I ask myself "are they feeling just the same"

One day up, feeling fine
they got all my sympathy
Next day down feeling blue
living here in misery

And I want to cry
even sometimes die

I don't know your face girl, don't even know your name
But I wish with all my heart that we will meet in time
You'll make me strong and I'll give you all

I don't want to fight no more
Make the sky be blue
I want to go back home
Hope you'll be there too.
