VERSE 1

When I hold your hand
It makes me feel so good inside
Wanna be your man
I'm gonna love you 'till I die
When I'm in your arms
I know that everything's alright
When I see your smile
I want to be with you tonight

CHORUS:

I want to be inside of you
I want to feel inside of you
I want to live inside of you
That's all I ever want to - ever want to do

VERSE 2

In the back of your car
You give me all the love you got
Did we go too far?
Your sex is all I ever want
When we're up in your room
You take me deep inside your light
Don't cum too soon
I want to make this last all night

REPEAT CHORUS

BREAK: (Instrumental)

REPEAT CHORUS
