"Sleep Walking"

It's tuesday morning
2 a.m.
I'm walking around outside my house
the whole world is sound asleep
but the whole world isn't like me

CHORUS:

well I must've been sleep walking
sleep walking, sleep walking
I must've been sleep walking again

It's Wednesday morning
the next day
I dont know where I was last night
or where I am right now
or where I slept
or if I slept at all

CHORUS x2
