Album: Kay Slay Mixtape

Im back now, Breakin all Limbs even your back now
Layin tracks down, With muti-sylible compounds
They sayin im blazin, Breakin the boundry of amazing
Broke the mold that created me, 10 years in the making

The prophecy manifest, born prodigy in the flesh
Scortched every bar Ive spitted and im bout to blaze the rest

Just hit 16, not in the bar complex
Yet my lifes been exposed to drugs, bars, and sex
New Jeruzalims Finest, In This Urban Ambiance
My Geneteical Alignment, Created by pure Defience
Spit in the face of Hatred, For all creeds and races
And kept down, Cuz to the system im Dangerous
Stayed up late and scripted my life in a pad
Touched on topics of lust, hunger, fights that ive had
Heard shit people say, Took my anger Fired back
Looked back track after track, and realize why I rap
I Speak on emotion, While most rappers are boastin
Bout all the bills they foldin, Or how deep the be rollin
I stay Solo only with a few around

I realize those you love can also keep you down
Spit a few punchlines for Party joints and mixtapes
Its evident, Im deadly as fuck with the wordplay
Im bound to make a name, In the voice you hear power
And in time imma reign harder than lead showers

Cant stop the unstoppable, Break the unbreakable,
Shake the unshakeable ITS SOLO BABY
Cant Prove the unproveable, Do the undoable, Move the unmoveable ITS SOLO BABY
Cant Rock the Unrockable, Shock the unshokable, Take the untakeable ITS SOLO BABY
Jus keep on rockin, Jus keep on rockin, Jus keep on rockin ITS SOLO BABY
