

## Spank Boy "Set It Off"

Visit "[Set It Off](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Get up on your feet - what? - and check the EQ  
Cos i caught your mind slipping and it just wont do so  
let us mix it from the box of tricks  
it's the rhythm of the summer when the drummer just  
kicks it  
You drop a king  
and i'll pull a set of aces  
spin a dice six spots on the face and it's  
two raised fingers for the victory v  
with a flipside peace sign positivity  
one hope one vision one quest  
one chance to take the mike and bring the rhythm to  
the rest  
pack up the charge, detonation in three  
burn with me

We'll tour across the world  
Across the world, Hell yeah  
Lets set it off, set off the timebomb  
No more waiting  
Lets bring it on, bring it on  
No hesitating

Get up on your feet - what?  
come along and take a hit  
from the super sound system, gonna get your head lit  
burning, pay attention to the light  
what a sight everybody in the place ignite  
one hope one vision one quest  
one chance to take the mike and bring the rhythm to  
the rest  
pack up the charge, detonation in three  
burn with me
