Close your deep dark soul and dance with me  
underneath the ancient trees of the sleeping forest  
Where shadows return to the eternal fright  
I cry alone and remember that long last kiss  
To feel the silence, I walked into the mind  
of the lonely one, once again it made me mortal  
The weeping angels cry along  
Throns captured the iced sun  
The stars dreamed together  
never was pain so close to fear

Oh,... I find myself,  
lying in a bed of autumn leaves  
screaming for my grief  
screaming for the one I was

Oh,... I find myself,  
bleeding to death, waiting  
my eyes, filled with emptiness  
my soul,... leaves me

The touch of God is cold as ice  
my leaving soul freezes...  
and I fear...  
I fear I saw the last sunset ever  
the last shivering moon shines on  
my body  
Primal fears at the end of life  
my mind dwells in thoughts and  
memories

Deep within my heart  
I feel the sorrow  
Deep within my soul  
I feel the fear

The portal opens in harmony with misery  
This will be the last of me to rest here

Last emotions flow away  
my eyes slowly close

my last breath finds his way  
into the lonely night...
