Let us leave for the life we talked about
Let us leave for the life we talked about
Let us be less afraid
Don't blame yourself for taking chances you could not
foresee
This is how it happens, this is how it feels
Don't blame yourself for making choices you did not
believe in
This is how it functions, this is how it is
Let us leave

Not the age, its not the place
It is the words we used to say
Its not the age, its not the place
It is the life we talked about
Let us leave

I know you miss it too, I know you miss it too

Remember me as a shipwreck, an undertow in the sea
I wanted you to hear it, I wanted you to see

Remember me as a melody,
a sad song in your head
Remember me as an undertow
going on under the sea
Let us leave

Not the age, its not the place
It is the words we used to say
Its not the age, its not the place
It is the life we talked about
Let us leave
