All I want is sex in drugs

I want to kiss the sky  
Look the rainbow in its eye  
Land my spaceship in the streets  
Freak the world with gangsta beats

I want to turn the globe  
Into an ultraviolet strobe  
Make it shower glitter powder  
Different colors every hour

I want to make you dance  
In your silver astro-pants  
Gravity defying moves  
To my intergalactic grooves

I want to turn your world  
Into a bio-hazard club  
Filled with radioactive sludge  
All I want is sex in drugs

Intergalactica (All I want is sex and drugs) x4

I want to invade your planet  
Take control of your radio waves  
Shroud the world in rainbow clouds  
Starting planetary raves

I want to take control  
Of your mind, of your soul  
Bring you deep into my schemes  
Fill your void with lucid dreams

Let the sky come melting down  
Dripping to the ground  
And the party doesn't stop

Watch the mother ship appear  
In your atmosphere  
Then you dance until you drop

She synthesizes my mind  
She crystallized in my spine  
So when the beat starts to grind  
My body starts to melt  
She got me feeling so right  
We're planet hopping tonight  
And walking into the light  
Come liquefy yourself

Every body's dancing in a shape shifting rainbow  
Moving like a freak to the beats that make your brain  
glow  
Every body's dancing in a shape shifting rainbow  
Moving like a freak to the beats that make your brain  
glow

Intergalactica x4

All I want is sex and drugs

I want to make you dance  
Put your body in a trance  
Trap your world in a rainbow orb  
Let your atmosphere absorb  
All my beats and all my bass  
Have the planet tripping face  
When you think the parties done  
I blast you right into the sun

She synthesizes my mind  
She crystallized in my spine  
So when the beat starts to grind  
My body starts to melt  
She got me feeling so right  
We're planet hopping tonight  
And walking into the light  
Come liquefy yourself

Every body's dancing in a shape shifting rainbow  
Moving like a freak to the beats that make your brain  
glow  
Every body's dancing in a shape shifting rainbow  
Moving like a freak to the beats that make your brain  
glow

Intergalactica x4
