Processing factory was working more or less
It's owner decided to show the hydraulic press
He was presented the machine to his friends
By minute later he was screaming without his hands.

Falsely was turned other lever and steel rope had
crashed
Seven bodies under the steel plate was slowly crushed
& smashed
The owner's hands was separated from by moving
press from above
He had got damages incompatible with life
In bestial tortures he had jumped under the press for a
suicideâ€¦
Understanding that it is have no choice - only to die
People in sign of revenge had ripped him on pieces.
The device with great ease was crushing screaming
bodies
They could see their bleeding intensens and guts of
each other
Coming outside of them,
Looking such as bloody jam,
It was mixed one with other into bloody mush.

Processing factory was working more or less
It's owner decided to show the hydraulic press
He was presented the machine to his friends
Some time later pressed pile of meat was conserved
under plate
It was looking such as fiend's hands madeâ€¦
