Streams of blood overflow the grave,  
Terribly screams will devour the brain,  
Finger-nails are clogged with a flesh,  
He devours the cadaver with trash.

Rummage decay,  
Decomposed entrails,  
Exhumation of corpse,  
Which was nailed before bled,  
Disemboweling of dead!

The viscera everywhere flies out the grave  
Greedy hands lacerate rest of ripped ass  
Shredded corpses was entombed only yesterday  
He devours organs from a common grave.

Eats rotting spleen which is pounded in soil  
Growls as a beast covered by sores,  
Infected by vermin's pest  
Never leaves flesh rest,  
He will have got the best!

He barfs by rotted blood  
Stomach is damaged by growth  
Bowels are pounded very hard  
Maggots suck it from inside!

Disorder in the grave,  
He eats diseased brain  
It's mixed with a damp soil  
He wants to get the gain  
He never liked to boil!

Streams of blood overflow the grave,  
Terribly screams will devour the brain,  
Finger-nails are clogged with a flesh,  
He consumes the corpse with fucking trash!
