Some people hate and expect affection
And some people lie and demand the truth
I gotta ask myself if it's soul deception
Is this the natural thing that we all just do?

We take such pleasure from pain
I'm just tired of playin' that game
Some things you've got to change

You've got to stand and deliver, with your body and
soul
Stand and deliver, just give me something to hold
Stand and deliver, if the truth can be told
We can make it together, if we stand, stand and deliver

Sometimes my mind drives me to distraction
I want to shut all the windows and lock the doors
And every time I get a little bit of satisfaction
I see the walls come tumblin' to the floor

I know in this life, you gotta stand up for what feels
right
Each day and every night

You've got to stand and deliver, with your body and
soul
Stand and deliver, just give me something to hold
Stand and deliver, if the truth can be told
We can make it together, if we stand and deliver
Stand and deliver

I know in this life, you gotta stand up for what feels
right
Each day and every night

You've got to stand and deliver, with your body and
soul
Stand and deliver, just give me something to hold
Stand and deliver, if the truth can be told
We can make it together, if we stand, stand and deliver
Stand and deliver, if the truth can be told
We can make it together, if we stand, stand and deliver
