Dear Stephanie, don't leave without me  
Don't forget that I'm here for you  
Lets lay and watch those heart shaped clouds go by  
In the city of Boston  
We can go together, it will last forever  
On the chemical road that we move down  
Lets ditch this place, I want your face  
And the rear view shows that painful town

Dear Stephanie, meet me in Boston [x2]

Dear Stephanie, why are you crying?  
You don't have to feel lonely now  
Dear Stephanie, the city lights are waiting to shine for  
you  
I know you've tried to be yourself  
But then get stuck as someone else  
I know it seems like you're not from here  
But please just know that I'm impressed

Dear Stephanie, meet me in Boston [x2]

Music interlude

Dear Stephanie, meet me in Boston [x2]
