Take it from me
That you're gonna fall in love
Just give yourself some time
You're just in a shaky frame of mind
Take it from me
That everyone's not that way
Just out to break your heart
Don't let yourself fall apart
I know that it hurts sometimes
But girl if you would give me a chance
I'll make you feel the way you want
I'll make you feel like you're in love
For once, make me more than a friend
I'll give you anything
Whatever makes you feel you're loved
Anything that I can give
and everything I can't
but I swear if you ask for something
I'd risk my life to obide
Take it from me
You're gonna love someone
I can see it in your eyes
Somebody's gotta treat you right
Take it from me
Your life is bound to change
He'll never, ever break your heart
You'll never feel that pain
You have this tendency to blame things on yourself
Has it not occurred to you, that it may be someone else
There is an urgency to change the way you feel
Well I'm here to make the way for you
You're not by yourself
