

Serrated Skull "Elusive Darkness"

Visit "[Elusive Darkness](#)" on MotoLyrics.com

We come out at night from beneath the graves
We steal your children and make them slaves
Try to stop us, we'll take your lives
We are the night dwellers to make sure you die

Watch us now as we take control
We force your children to join our dark patrol
Try to stop us, you will find
Elusive darkness is on our minds

All of your cries will be answered with silence
The only response you will get is our violence
And if you try to run, we will find you
We'll leave your blood trailing behind you
