Endless morning
endless rain
better stay in bed
the rest of the day
spent every dime -
fooled again.

You can't kick
the habit

- even in Hell.

Draw the blinds
or cross some lines
mistreating people
hurting friends again.

"Chorus"

Proud hearts that burst
comfort in glass
a light in the mind
or - a fake powerblast.

"Chorus"

Endless morning
endless pain
a work in progress
or, an energy drain.

"Chorus"

Oh mama,
was it my fault
just another boy drowning
a final assault.

"Chorus"
