

Slugwrench "Dead Ride"

Visit "[Dead Ride](#)" on MotoLyrics.com

save your prayers, nothing you do
I didn't write these words for you
and now you know I'm not here to impress
I'm not here to cause any stress
I am just here to show you the way
take me in and kill me away
suck me down
something inside
just lay back, and enjoy the ride
I am here and you are there
let's come together and we'll be a pair
your mind opens up, your eyes dilate wide
come on baby let's go for a ride
I need to take you and rip you apart
It's the way I've felt, right from the start
I didn't write these words for you
save your prayers, nothing you do
I'm not here to show you the way
take me in, and kill me away
suck me down
something inside
just lay back and enjoy the ride
