"Inside"

I'll give you wounds that'll never heal
that's what it takes to make me feel
you don't know what I have to hide
all this time I've been keeping it inside
inside
napalm murder in my brain
do what it takes, to keep me sane
I don't know what you think you could do
to try to keep me from killing you
(lyrics unclear at this point)
confetti of flesh falls to the floor
convulsing helplessly, a dying whore
naked and bleeding, time to pay your dues
I've made you an offer you just can't refuse
