Music: Karl O. Langedahl

Lyrics: Oyvind Karlsen

Take my hand and walk with me
Into the bridge of eternity
With my soul my body dies painfully
Help me now or not the mourning of...

Tears and sadness withers away
To arise from it's sleep
And carry out the human burials
Reincarnation of the flesh, torn away from it's womb
Reconstructed existence of the darkness
Intense destruction of an ancient time
Plagues and suffering tearing through the soil
What's unbegan is now to become reality

The sky turns black above me
To Form a portal to oblivion
Locusts rising from the earth
Oceans boiling in blood
