Life is crazy sometimes I feel like I'm just going out of
my mind
Aint no pleasure in this pain that's why I hide all my
fears inside
(I'm keepin it real, girl)
So you ask me what is wrong and I try my best---to
explain
(this aint no love song)
It's just a temporary chemical imbalance messin with
my brain
(and I'm not feeling alright, no no)

Chorus:

Stop the world from moving
Can't hang with this groovin'
It's the day to day thangs be buggin me (oh no)
like I'm havin a nervous breakdown
and it's kickin me in the worst way

Verse 2

Sometimes you go through it all the money in the world
can't fix it
Sunny days seem so blue feels like I lost a good friend
can't deal with
it
Anxiety attacking me through all my thoughts and my
sanity
Finding it so hard to concentrate on love, life and
creativity

Chorus

Vamp:

Gotta just live my life
Then I'm gonna feel alright
No stressin and no more strife
Gotta make it feel alright
