the recurrence of Owl Aided

may time had to show the way
across the deep green lake
the mothergoddess laid til she first awoke
insubstantial shades
when darkness began to fade
the mothergoddess laid til she first awoke

in grey marshfields in isolated lands
the mothergoddess slept til she first awoke
whenever the time is right
she wakes up and rule the tides
the mothergoddess completes her final work

and the feud will last until the end of time
and the seed will grow until the end of time
and the old will speak the words of sapient rhymes
the recurrence of owl aided
the recurrence of owl aided
the recurrence of the owl means death
