Give Me Love

Uhuh...

Uhuh...

Try a little kindness baby

Show a little empathy

When my eyes are filled with blindness

Try a little sympathy with me

Careful of the things you say with me

If you wanna have your way with me

Whisper in my ear real low but,

Spare Me The Sorrow... Spare Me The Sorrow...

{Give me love and you'll never be sorry, I'd rather be alone than lonely}

{There's a price to pay for freedom, I wanna know if you are for me}

Uhuh... Uhuh...

Give love and you'll never be sorry

There's a price to pay for freedom

I can smell the morning glory

Will it in your heart and your will be done with me

Careful of the time you spend with me

If you wanna learn to bend with me

You can have your way you know but,

Spare Me the Sorrow... Spare Me The Sorrow...

O child, comon child, comon' child,

Oh, oh child, comon' child

Oh, oh, oh, comon' child

Oh, oh, c'mon, comon' child

Mmmmm...

I only wanna see you smile

Rather be alone than lonely

I'd rather be , I'd rather be alone than lonely

Ah... with you

Spare Me The Sorrow... Spare Me The Sorrow...

Try a little kindness baby!
