[Mr. Shadow]

I be blowing up like land mines going across the world  
and major plains  
Hearing you people yell my name makin the money  
fuck the fame  
Them lame ass rappers claimin to be some fucking  
stars  
Save that drama for your mama, just remember who  
you are  
Ain't no need to fake the funk talking you're this and  
that  
I've been a thug tryin to be somebody and it stays like  
that  
I was borned raised to resign in the ghettos  
Unlike all you phony imposters claimin to be at another  
level  
Like the Devil in my mental, feel your passion for  
disasters  
Fuckin up them happy homes, stoppin the heartbeats of  
these bastards  
I'm the master of them shadow right behind you day  
and night  
Double cross me be the cause and watch your casper  
catch a flight  
To the land of no tomorrow leavin your hated ones in  
pain  
Mothafuck what they be goin through, my hard is dark  
just like my name  
I frame a mothafucka for their actions  
Try to act a fool and watch below away your ashes  
I clashes with foes intentually, permently I abuse their  
ass mentaly  
Makin sure this putos remember me  
Cause Shadow be, driving mothafuckas in the box  
If you want to meet the facts that I'll meet you at the  
docks punk

You stare when you see The Shdaow comin  
Beware mothafuckas start runnin  
Death makes a mothafucka shiver  
You best keep your shit up on the trigger

You stare when you see The Shdaow comin  
Beware mothafuckas start runnin  
Death makes a mothafucka shiver  
You best keep your shit up on the trigger

[Mr. Shadow]

Walls colapse on top of the fake  
mothafuckas it's no mistake  
So you want it be a fluke  
now you're walking the skies like luke  
You better beware like I was eclipse  
I'm come equipted with clips that be rippin your lips  
I think you're one of the infamous Sisco Kid  
I leave your mysterious unsolved if you get into shit like  
this  
When I clutch my fist I dismiss mothfuckas of my list  
Through the mist of the evening fog I'm the hog that's  
causing the riots  
Leavin mothafuckas frozen like that computer virus,  
like cirus  
I'll light those sirens and body bags on tops of  
stretchers  
Mothafuckas I'll never forgive never the less will I  
forgetcha  
If you owe then you pay me in my world there is no  
maybe  
Fool you're acting like a lady might as well just have a  
baby  
Let me remind you, but you can hide but I'm gon find  
you  
Since the day you were born til this day I still behind  
you  
I blind you like eclipse, bring you hell like triple 6's  
got you fiendin for my music like those shooters fiend  
for fixes  
If you ever break my record it's like breakin a fuckin  
mirror  
7 years of getting your ass kick causin enternal  
bleeding to your liver  
I am the sickest and the quickest in this business  
You think that you're a player but I'm the one that's  
pokin your mistress

[Chorus]

[Mr. Shadow]

I'm rarely unforgiven syko driven out of my mind  
I be more blunt then the sincre so mothafuck don't  
waste my time  
Step into these kamakazi, you'll never see tomorrow  
Skip Moheny and The Casuals, cause where ever you

go I'll follow  
The Shadow be stalking all the rivals like Ramirez  
When you hear this you fear this and in a minute flies  
your spirt  
I tax a mothafucka like the government the punishment  
be brutal  
I let the body rot like there was bruno  
Like Pluto you're the smallest in the universe you'll  
never reach my status  
Better kiss and say good bye like The Manhattens  
Dramatic's about to reign Mr. Shadow brings the pain  
Enemies I touch with reign with the lyrics from my brain  
Substain or get stained like it was the time of the month  
for you  
Either play the fuckin game or the game will play you  
like a fool  
Breakin em off like fuckin branches, makin em fall like  
avelanches  
Those who be actin like biatches be pushin up daises  
like them snatches  
Better learn or get taught cause off the map I wipe  
them all  
Stoppin pulse of imposter hittin em up just like a call  
Spook you in the night like if I was Gladice watch you  
fall  
I'm loved by a few... hated by most... respect by all Ha  
Ha Ha

[Chorus]
