Iâ€™ve got no reason to live today
I was born into nothing
All you want to do is lye awake with me
And drive ourselves crazy

I donâ€™t want to meet you underground
Cause it wonâ€™t take long to hate me
Iâ€™ve been wanting just to get away get away
And find a better place to be

You You
You already knew that the time would come
When Iâ€™m already sick of you
And I, I already knew that the time would come
When Iâ€™d finally get sick of you

All I ever do is sit around
Thatâ€™s the way to be
When you look like me
Iâ€™m not much for fashion
But letâ€™s try to undress our way out of this mess

Break it down
Donâ€™t make a mistake
When Iâ€™m down
Get out of the way
Enjoy your life poolside

You You
You already knew that the time would come
When Iâ€™m already sick of you
And I, I already knew that the time would come
When Iâ€™d finally get sick of you
