Wasn't a rabbi
Wasn't really a teacher
Was nothing more than a street-corner preacher
Never thought much of accepted tradition
They never thought much of his attempted sedition

A commandment of men
Learned by rote
He knew all of the Prophets' quotes
The Prophets' quotes.

The rabbi is dead
The nations mourn
But all the old men of the synagogue scorn

The rabbi is dead, he'll still put out more songs
Prolific is easy when you do everything wrong
Everything wrong.

The Organization would never ordain
Someone so dangerous, someone so insane
The Organization, it made him feel bad
Ten million of their followers thought he was mad

The Holy Law should never be superseded
That's why Israel's numbers are being depleted
Being depleted.

Wanted to be a singer, to be loved by all
Accidental overdose in the middle of fall
Viva the Gangsta Rabbi, for he is no more
A feature on the JDub Digital Store.

The Holy Law should never be superseded
That's why Israel's numbers are being depleted
Being depleted.
