Harry: (Dialog)

"Accio guitar!"

(Song)

Hey dragon

You don't gotta do this

Let's reevaluate our options

Through away our old consumptions

Cuz really we don't wanna go through this

I'm really not that special

The boy who lived is only flesh and bone (Aah...)

The truth is in the end

I'm pretty useless without friends

In fact I'm alone

Just like now

Anyhow, I spend my time at school

Trying to be this cool guy

Who never even asked for it

Still don't know any spells

But still manage to do well

But there's only someone that can last for

I'm livin off the glory

Of a stupid children's story

That I, had nothing to do with

Just sat there and got lucky

So, level with me buddy

I can't defeat thee

So please don't eat me

All I can do

Is sing a song for you

La la la la laa

Dragon:

Rah rah rah rah rah

Harry:

La la la la laa

Dragon:  
Rah rah rah rah rah

Harry:  
La la la la laa  
That's right dragon

You never asked to be a dragon (huh?)  
I never asked to be a champion (ooh!)  
We just jumped on the bandwagon  
But all we need in guitar jamming

So, La la la la laa

Dragon:  
Rah rah rah rah rah

Harry:  
La la la la laa  
Good night dragon

I BEAT THE DRAGON!
