Living better at the thought of living better
Living this carpe diem, so I'm caught in this forever
The smell of wyat cell over teddy bear sweaters
Knowing I got one on, I never zip up my lever
Never did this to catch em, they wanted to catch me
Said I roll like I yet to know what a rap be
Hah, meaning it's deep in the rap if you ask me
Well the subjects of the stories I told where the track be
2 classics I'm rollin on lap 3, my whip is 2 doors
I drove from the back seat
I did it like who's y'all, and know that on lap 3
I'm still clueless to y'all but I know where the track leads
Meaning all I see is lean and opportunity
Lil road kill, I deem by they jewelry
Know the flow still got em leaning out the coup with me
Like son, do you hear what he saying, I mean truthfully
Truthfully, I'm just waiting for this to pass
This 5 year plan that I gave them is in the back
The bag got monograms on it if you ask
And a space jam glow, if you open it and grab that
Just do it from brooklyn who had intentions
And hoping that jay is watching
And saying yeah he gifted, but hoping that jay is
watching
It's double ledge and twisting
Like yeah I'm still a fan, but now I'm within the bizness
The blind is his own but I get the urge to live for my
peak
And leave it there, I outswerve collisions
My peek it still in there, I'm nowhere in reach of it
Yet I sound like it's a throne here I'm leaning in
Critics say that my destiny's that guy
I'm just here to tell a story, if I ever sit that high
Then I'm playing follow the leader
Applaud that as a given,
Like I don't fuck with the next, but damn I fuck with his
vision
I never been a follower, but if I do follow it
It would be a 600 mill leader and a few bottles
My fan base is double knotted like an ascot
Half of them have degrees, half of them got stash box

Half of them is stripped, and half is contemplating
I see you vision my mind
I put my money on the loan shark
Treated like you came in dog with no prints to be rinsed
And no names to recall
I mean we out here in grind mode
Caught up in the paper chase
I wanna fuck a fine hoe front row to fade o ace
Madison square, a ball player is never the boys
Are madison square just passin through there
I'm in a blown orange state, so only ...
I was raised on them colors, jigga that would be fair

But I still lift my half of the achievement
Only it's blowin orange letter where my team is
If we can get past that and between this
Then it's the time to be easy for me to leave with
Floor seats, sway 10's where my feets is
Raised over, he wrote who my team is
I'm trying get these floor seats with young
Pride make me take my hat off cause my team just won
Videos with spike lee and my sneaks is dumb
Records with jill scott and if you be where I'm from
That be floor seats with young
Pride make me take my hat off cause my team just won
Videos with spike lee and my sneaks is dumb
Records with jill scott and if you be where I'm from.
