(Excuse me as I kiss the sky) [Verse 1 - Skyzoo] Ridin on the wings of a dollar bill Or better yet the anticipation of how it feels Yeah, I guess I'm ridin on that Caught a flight here and I ain't tryin to fly back Nah, I held hands with the other side And not afraid to still stand where the others hide I foresee my afflictions in it With no missed beginnings and no plans of tryin to kick this itchin Nah, see the feeling is too strong to leave 'lone The young board is too far to leap from The conversation is too crafted for me For me to believe this is somethin that can come and harm me Easy for me, I mean, I follow the aroma And the aura of what it might be is bringin me closer Higher than I've ever been, caught it while catchin it And tryin to keep it caught takes precedence My interpretation [Chorus - Skyzoo] - w/ ad libs Never knew a feeling like this Feelin like the feeling's priceless I know what I need, I know what I want I know where I've been, I know where I'm goin My interpretation Never knew a feeling like this Feelin like the feeling's priceless And all that I need and all that I want Is to leave where I be and get where I'm goin My interpretation [Verse 2 - Skyzoo] For everybody watchin me from the other side I'm two smiles from every one time you wanna cry I can't call it and yeah even though I'm all for it It's underneath me, I walk on it Meanin I control what starts and stops And I can start and stop whenever needed, so I'm far from got It's the allure of sittin between it all Hands on the steering wheel, gettin me across First time's a charm, the first time is gone As quick as it came, so the chicks is leadin on And I can't describe every time that I rise But the further I go up, the more I wanna fly And the limits don't seem to be around So if you see me now, you see that I ain't tryin to see the ground But I can come down whenever is necessary No worries, you don't gotta hear me It's my interpretation [Chorus] - w/ ad libs [Verse 3 - Skyzoo] You get your wings on your first taste Fly away from everything on your first chase Can't deny what it brings when it first breaks So how could you ever think that this would turn great? You see the lines get blurred the more that you partake Followin

a curve, the more that you walk straight Attached at the waist so everything that you need Is at the other end of everywhere that you be And you sittin on E but denial is enough To ignite and rile somethin up And all that you want is letter H, letter O, letter P And it seems at the bottom of it all is letter E Let it breathe, is the feeling you receive Roll down your pride and peel up your believes Roll down your eyes and peel up on your sleeve Inhale and feel it underneath It's my interpretation [Chorus] - w/ ad libs
