Seems like it was only yesterday nothing to do and  
nowhere to play but then we could go down to Gilman  
Street and see Op Ivy every week no violence drugs or  
alcohol just maximum rock and roll at Gilman Street it's  
the place to be it's the seat of the punk rock scene  
cause we got the beat and we don't eat meat it's a club  
it's a place it's a thing and if the band is hell of rad Tim  
will start to bounce his head all the kids will jump on the  
stage and they'll hit the microphone in your face and  
you will get a fat lip in the pit at gilman it's a safe  
retreat for a zillion punk rock bands cause they've got  
the club and it's not enough but at least it's not Bill  
Graham it's Gilman Street Radley does the sound  
Honey watches the door and James McKinney sweeps  
the floor Isocracy made a mess we demand nothing  
less and if you've got nothing better to do there's a  
meeting every sunday afternoon and you can make a  
speech you can rant you can rave you can preach at  
Gilman Street it's democracy it's just one big family it's  
a bunch of geeks it's a load of freaks it's a club it's a  
place it's a thing it's Gilman Street.
