Seems like it was only yesterday nothing to do and
nowhere to play but then we could go down to Gilman
Street and see Op Ivy every week no violence drugs or
alcohol just maximum rock and roll at Gilman Street it's
the place to be it's the seat of the punk rock scene
cause we got the beat and we don't eat meat it's a club
it's a place it's a thing and if the band is hell of rad Tim
will start to bounce his head all the kids will jump on the
stage and they'll hit the microphone in your face and
you will get a fat lip in the pit at gilman it's a safe
retreat for a zillion punk rock bands cause they've got
the club and it's not enough but at least it's not Bill
Graham it's Gilman Street Radley does the sound
Honey watches the door and James McKinney sweeps
the floor Isocracy made a mess we demand nothing
less and if you've got nothing better to do there's a
meeting every sunday afternoon and you can make a
speech you can rant you can rave you can preach at
Gilman Street it's democracy it's just one big family it's
a bunch of geeks it's a load of freaks it's a club it's a
place it's a thing it's Gilman Street.
