I thought I knew what you were thinking for so long now
I know that I was
mistaken wonder what went wrong wonder what went
wrong now babywhat went wrong
I wonder what went wrong and how we got along All my
plans for world
domination were premature you pushed me back to the
border and I'm good and
sore yeah I'm good and sore now baby that's for sure
tried as a criminal
'cause I lost the war What went wrong, what went wrong
Made you into my own
creation, victim of my mind you don't meet with my
expectations, you don't run
on time ad I wonder why now baby why you even try
you know I wonder why I take
the time What went wrong, what went wrong.
