5 W's, 5 things ur woman ask u

(Verse)

She want to know where ur going
What u doing, who u screwing, why ur lying
When was the last time u take her shopping
How I cant take this nagging
She want to know who is that, where I'm at
Then she goes "what" when me do beep back
Sometimes u know I'm scared to go home
So I don't even answer my phone

She wanna know who is calling, why I'm lying
Because she don't believe that it is my cousin

But she still ask me "where is the ring?"
Then she ask when I am gonna stop the cheating
What dis condom doing in my jeans?
Then she come inna meh car and find a g-string
Whole night inna meh ear she a sing
