Visit "[First Asian Boy](#)" on [MotoLyrics.com](http://MotoLyrics.com)

[Verse One]

Ahem, let me introduce  
Myself cause I know that you ain't used  
To an Asian dude stepping to you like me  
But hey, give it a chance, I just might be  
Just the refreshing squeeze of lemon  
You need in yo life when it gets depressin'  
Come with me and decrease the stressing  
A new type of dude lemme teach ya a lesson

[Chorus]

Baby girl don't trip, come on just take my hand  
I'll introduce you to my world, stop in Thailand  
I really want to show you how we do  
I can be your first Asian boy

[Verse Two]

She said, its really nice to meet you, likewise  
I never had a boy like you with tight eyes  
Step to me quite with a game like yours  
I said pack yo bags and come on my tour  
Let down your hair while I cook some rice  
And I swear that we don't all look alike  
And no, I'm not no math expert  
But you plus me I know it just works  
So, pause yo life and start to rewind  
And leave all them other lame dudes behind  
Show you how I do in my continent  
Where the ladies get respect and compliments  
Confident, not gonna be staring all night  
Cause I'm not yo average stereotype  
More than making shoes and making toys  
I could make you smile, yo Asian boy

[Chorus]

Baby girl don't trip, come on just take my hand  
I'll introduce you to my world, stop in Thailand  
I really want to show you how I do  
I can be your first Asian boy

[Verse Three]

Wanna get away? Whatchu' got to lose?

Come on in girl, take off yo shoes  
Show me ya soul and I'll show you mine  
If you toes ain't did well boo(or boo boo) that's just fine  
My aunt does nails, nah I'm just playing  
But don't get too comfy, cause we ain't staying  
Take you to Beijing while were dating  
Ill show you the great wall, it's amazing  
Show me your soul in Seoul, Korea  
I been looking for a girl like you my whole career  
In the Philippines scene, we'll ride in slow-mo  
Sit in the lo-lo eating chicken [adobo?]  
If you got skills then you could show me  
Cause all of our houses got karaoke  
Chinese, Japanese, Thai, P'noy  
Go ahead and take yo pick girl, Asian boys

[Chorus]

Baby girl don't trip, come on just take my hand  
I'll introduce you to my world, stop in Thailand  
I really want to show you how we do  
I can be your first Asian boy

[Verse Four]

Who killin' them on YouTube?  
She gon' respond like you,do  
A shock to me, I didn't think she be watching me.  
She said, "Can we go get some fo now?"  
I said, "Get some what? Oh, wow.  
Actually it's pronounced fa."  
"Oh, well can we go get some?"  
"Fasho." He's chinky, I know whatcha' thinking.  
He look like he's always blinking  
Take my hand, come to Thailand  
She love Mai Thais but not what she drinking  
Tell me whats your mental  
About this oriental, gentle man  
But I break you off like the tip of a pencil.  
Dress fly like the freshest prince  
Before they out got the freshest kicks  
And you thought he was just a hype beast,  
But look at these Nikes; is anybody like me?  
And I know you ain't in to my kind  
I seen yo ex's, they're not impressive  
But I still make that ca-a-ash  
Always on my grind, I'm a good investment  
And if you liked Jin when he flows  
Or Dante Basco on old black shows  
Then maybe you should date me  
Cause we'd make some pretty babies

[Outro - Part One]

Let's get some Thai grub, Thai grub, Thai grub  
How about some rice?  
Maybe some boboa, boboa, boboa  
With lots of ice?

[Chorus]

Baby girl don't trip, come on just take my hand  
I'll introduce you to my world, stop in Thailand  
I really want to show you how we do  
I can be your first Asian boy

[Outro - Part Two]

What's up ladies?  
I'm telling you, it's the newest craze!  
Kick all those, stinky dudes to the side.  
Get with an Asian dude.  
We're nice and compact  
We're clean, we don't a mess  
We got aunties that can do you hair, your nails  
We can do you math homework for you...
