In your eyes, I see reflections of my life  
And every time, I hear you cry, it breaks my heart  
I know why I feel no emptiness inside  
Because you're always on my mind  
I know that you love me too

I need no body but you  
'Cause you make me feel all right  
You are my only wonder  
I'm always by your side  
I need nobody but you  
'Cause you make me feel this way  
I lay my heart into your hand  
I love you more day by day

When you speak, it's like a million angels singing  
Just like a thousand bells are ringing  
When you touch my hand  
I see no other girls  
That can compare to you  
I never felt the way I do  
When my heart's close to you

I need no body but you  
'Cause you make me feel all right  
You are my only wonder  
I'm always by your side  
I need nobody but you  
'Cause you make me feel this way  
I lay my heart into your hand  
I love you more day by day
