You're just sitting on the ground
I'm laying open armed
I have so much to say
But when I look into your eyes
Something burning deep inside
It's like a flame
You drive me crazy
But baby you don't see
How I can
How I can show you
It's not just a game for me

Seasons come and seasons change
Actors moving on the stage, rivers flow
We buy tickets on the train
Good things happening again
Wind of the roads
These are not clouds
That are crying
It's a love song all around
There's no more
No more lying
We're standing on the holy ground
