

Triangle Sun "Tonight"

Visit "[Tonight](#)" on MotoLyrics.com

Walking down empty streets of old
The morning smiles from you to me
It's good to be out of the cold
Just being here, just being free
Piano man plays your favorite song
Just the way you used to play
All you want is someone to hold
But my love, you have to wait

Until I will cross the sea
Until I'm lying by your side
You will count the stars for me
But not tonight, tonight
But not tonight, tonight

As the clouds fly above my head
I recall our favorite things
So much life in the air I sense
A new day comes, what news it brings?

Piano man plays your favorite song
Just the way you used to play
All you want is someone to love
Yes my love I'm on my way
