Cell phone rings, they found a Mr. Jaffery  
The corner of the street two buildings down  
Wailing in a wheelchair, in the pouring rain  
I'm all alone  
I'm all alone

Tommy has a plan to marry Liz  
But all guys in the block don't think he's right  
Liz doesn't think too much, she's with her Bob and  
James  
Oh, she's so wild  
Oh, she's so wild

But you say you'll never give up on me  
You know think that I never knew  
Time is helping my eyes to see  
Your love which it is true

Kinsli and Papinda live in Africa  
In a little town since 1969  
But roses in the garden don't impress them much  
Because they're blind  
Completely blind

The world around is full of broken hearts  
But how to find the way to fix them all again  
And where to find this perfect medicine  
To cure our pain  
To cure our pain

But you say you'll never give up on me  
You know think that I never knew  
Time is helping my eyes to see  
Your love which it is true

But you say you'll never give up on me  
You know think that I never knew  
Time is helping my eyes to see  
Your love which it is true
