There always somebody talking about me
But really I don't mind
They try to stop and block my progress
Most of the time
The mean things they say
Don't Make me feel bad
Cause I can't miss a friend that I never had
I got the Lord
And that's enough, that's enough, that's enough

Chorus:

Well, He raised me - that's enough
And He saved me - that's enough
Oh, He brought me - that's enough
And then He taught me - that's enough
He's my keeper, He's my guide
And I can feel him walking by my side
I got the Lord, I got the Lord
I got the Lord, I got the Lord
And that's enough

There's been so many times
That I didn't have a dime
I tell nobody but my Lord
He heard my plea and came to see about me
He's my all and all
When they push me down, he picks me up
sticks by me when the going get tough
I got the Lord, and that's enough.
