[Track #5]

When I look into your eyes
and they warm me just on sight
It's an experience
I'd dare share with anyone else
Just a telephone apart
There must be ringing in your heart
There must be
'cause I call to you most every night
Your touch is like fire and ice
rolled into one and multiplied twice
You've given me the strength that I need
but without your heart, I'm just weak
So I'll ask you...
(chorus)
Stay with me
Stay with me
Stay with me if only for a lifetime
Stay with me, or at least please stay the night
and be there in the morning
Do you sense just how I feel
As my desire for you spills
out from my hands
and into the candlelight
Like shadows we fall and we rise
Words from your lips ring endless in time
You give me the will to believe
but it's still your heart that I need
So I'll ask you...
(chorus)
Stay with me
Stay with me
Stay with me if only for a lifetime
Stay with me, or at least please stay the night
and be there in the morning
