[Baybe]  
Music! (2X)

[Guru]  
Times like this make me clench my fist  
Then I'm caught up in the midst of the musical bliss  
Guru, blow a kiss to the ladies in my corner  
Caress the mic and kick my game like I wanna  
What? You never see the brother Guru falter  
Respect is due, praise me like the altar  
The crew we're as true as they come son, we come  
from  
ill life experience, and take rap serious  
Feel the music

Chorus: Baybe

We hold the key, to our destiny  
We can make it everybody  
Feel the music  
Just free your mind, sit back relax and unwind  
To a higher plane we're going  
Can you feel the music?

Music! (1X)

[Guru]  
Original baldhead Crooklynite, rudebwoy instructor  
I came back to lay down law, to the suckers  
I'll crush ya, if you ain't actin like my brother  
Make one false move and with the mic, I'll bust ya  
Just lay back and feel the music

Chorus

Music! (3X)

[Guru]  
When I step into the club, I come to do work  
No hesitation, because I'm fully alert  
Like Max Julien, I'm an authentic Mack

Many others can't compare, I'll bet on that  
Dialect and vocal tone, completely exact  
I react, then I max in this mellow track  
In fact, I'm knockin MC's out the frame  
cause I'm smooth like jazz, Guru is my name  
Feel the music \*echoes\*

Music! (1X)

Chorus 1/2

[Guru]  
New reality.. a higher level of conciousness  
Don't play yourself; get out of line and get stomped  
with this  
Negativity is a chronic disease  
But I'm like the cure, causin infections to freeze  
I'm not gonna let up, until you get the picture  
My sound gets around so you know I'm always with ya  
Feel the music \*echoes\*

Music! (1X)

Chorus: repeat to end
