Ladies and gentlemen this is the soundtrack of pain
Seated or in foot, continue how they are, and hear what
i say
The love is nothing else than a feeling
Beatiful? Perhaps... But i really want to say
Fuck you if you love or if you hates me
What i really want to say... fuck you

Pain...
This is the soundtrack of...
Pain...

I'm fall in very pain
Shot in the chest, i'm bloody
Damned love, who created him
Die - Love for the lies
Die - Love for the guns
Die - Love for disgrace of the others
I don't want love for anything else
I want hate, anger, rage
My hope for this life don't worth anything else
I hate you, I love... hate

This love that killed me i want to you
What a pity, you'll be one more to be fuck
Wait until seeing the result of your lovely feeling
Know that the pain is the best torment
I don't want your bad, only my love

This is the soundtrack of pain
The close possible of the insane

I'm fall with very pain
Shot in the chest, i'm bloody
Damned love, who created him
I'm fall with very pain
