Step into my life
Step into my life
Theres nothing to loose
Step into my life
Now don't be confused

Come into my life and let me show you how I'm livin.
How is givin a few, takin and never forgivin.
Roose out the gutter never had to rely on another,
now I turn the shit around,
see me smile at the front cover.
Once a limp, stitch turntricks,
now we stick the chips and we make the hits.
25 grant for a show, never touched the snow, drink
champagne in the limo.
Set my girl up with a house in Miami,
Pappa's new born got a bear named Teddy.
Diamond bracelettts, gold chains and sunshades with
goldframes,
swiss bank account on both names.
Take you to a journey where my live is to lim
I can show you things, you never knew they exist.
Places and people, that had to struggle to survive,
and now you know, it's just a chapter of my life.

Step into my life
Theres nothing to loose
Step into my life
Now don't be confused
Step into my life with me
Step into my world and see
Step into my life

Come with me, open your eyes and look around,
what do you see? Envy and jealousy!
I was born here, one day I said stop.
Turned the negative to positive and just dropped.
I decide, if I can so can you,
you can make a difference with the right attitude
Now you see me spending ends to myself,
I deserve this, with hard work, my friend!
The right moves at the right time, with the mximum

risk,
a gold card of the right membership.
It's all about, who you know and you don't know.
That's no joke and if you don't, it's like a slowboat
I guess, right you know exactly what I'm sayin',
without no delay, Pappa's champagnin'
Keep the right appearance if you wanna survive
and that was the second chapter of my life.

Step into my life
Theres nothing to loose
Step into my life
Now don't be confused
Step into my life with me
Step into my world and see
Step into my life

Let me be the one, let me show you how it's done.
Not just for fun, but for pure education.
Let me spread my words, my rhymes accross the
nation.
Get a grip, take control of your life.
Appreciate your birth and your one and only wife,
don't let your fantasies die and fade away.
In fact get paid , enjoy the price
And that was the thrid chapter of my life

Step into my life
Theres nothing to loose
Step into my life
Now don't be confused
Step into my life with me
Step into my world and see
Step into my life

And this is for the kids always believe in yourself,
always listen to your heart, step into your own life.
No violence, no drugs!
Know what I mean? You got only one life!
And I'm out!
