"The northwind will take me  
To places unknown  
To places of ancient times"

These days, these nights  
So dark, so cold  
Freezing winds from the north  
Are tearing my skin apart  
These will be the last days  
Of our lives  
Still we stand strong  
The blood is freezing in my veins

Waiting for this life to end  
As my lifeblood turns to ice  
The storms are calling  
The symbols of winter

Nocturnal darkness  
And the visions of my beliefs  
The frost - it haunts me  
For eternity  
Underneath this dead cold skin  
No feelings left  
For I'm forever passed beyond

I believe in secret passages  
To the underworld  
Hidden deep inside man  
A key to the gates - The gates of hell  
Far from this forest  
Where my body lay to rest  
Far from these mountains I've walked

Hear my call  
As death encloses my soul  
Northwind, guide me  
To eternity  
My frozen body  
Lay to rest  
Covered in snow  
While I walk

The last path

Northwinds hear my call  
Guide me O northwind  
To eternity

I believe in unholy spirits  
Wandering this earth  
Guiding us to the unknown  
Leading us to new horizons  
Of the other side

Leaving this earth  
Horizons beyond  
The northwinds are here  
Take my soul  
As I close these eyes forever
