I came over but forgotten what IÂ'd say
It doesnÂ't matter anyway
I liked your lecture but I wouldnÂ't have it your way
ItÂ's beside the point anyway.
Oooooo, Oooooo, Oooooo
Oooooo, Oooooo, Oooooo

I donÂ't like, I donÂ't like to be playing the fool
I will not be there for you
So stop stopping, stop stopping what I want to do
I will not be there for you

I try running, been running from you
I wonÂ't be your fool
My last try meant nothing to you
What else can I do
(Repeat)

I try running, been running from you
I wonÂ't be your fool
My last try meant nothing to you
What else can I do
I try running, been running from you
I wonÂ't be your fool
My last try meant nothing to you
What else can I do
