Going out in falling the eye
Easy friends are... the eyes
When this time go double do you
Otherwise so much to do

Earning money
All the people have something better to do
Wake up, wake up, wake up
Nobody is waiting for you

Look around and follow your eyes
Happy run is wearing this mad
It's too easy say what you wanna say
Other wise they looking the way

Earning money
All the people have something better to do
Wake up, wake up, wake up
Nobody is waiting for you
Nobody is waiting for you

You remember running at the...
Plus to surrender to the flashin light
Seeing sleep on the feet
Wake, wake it from the dream

Earning money
All the people have something better to do
Wake up, wake up, wake up
Nobody is waiting for you
