

## Traumatic Voyage "Shadowconscious"

The shadow that grows deep inside...  
As I left all those weak human emotions behind...  
The wretched life-definition of a pragmatic empire...  
...Dethroned and bleeding...  
...Fallen symbols of apathy!  
As I walk among the mental corpses of "god's"  
children...  
Trapped in a dreamless ghagarious sleep  
My hallucinations become reality...  
Sleep on, mankind... ...sleep on...  
...And never awake!

Implated pictures of the future  
A golden cage... where the mind decays!  
Profanced hands writing the book of life...  
The machinery spreads its soulless chimeras!

A ethereal shot in the head opens my eyes forever  
Shadowconscious... evening falls inside...  
The psychic metamorphosis into a life's-trauma...  
Returning to the graves of birth  
Shadowconscious... above the fear...

I am the misanthropy...  
Shadowconscious... dead inside...

Between these ruins... my will dominates...  
In the infinite darkness behind my eyes  
Shadowconscious... dead inside...  
Discovered lies... the end of light...  
In my inner domain... where I step into my...  
Shadowconscious... dead inside...  
Over life and death... my will dominates...  
My visionary eyes are released...  
Into the shadows of eternity!!!

It's not my destiny to be a slave... Humanity is a prison  
for my spirit  
And in the cosmic streams of the afterlife... I rise out of  
the ashes of remembrance

They have yes but they can't see... The perfect

deception of their ridiculous ideals...  
The sickness in their heads... On which their transitory  
dreams depend

The dawn of a new life awaits me... The end of all what  
you've created...  
And finally all will see my traumatic mind... Appears in  
the shadows of our own
