She's beautiful and political she's vegan
so I'm watching what I'm eating
I'm watching WHAT I'M EATING!!!
if there's a hole in the ozone how could she notice me,
and if I eat rainforest beef will she smell it on my teeth.
She doesn't wear makeup of course she doesn't need it
but more than that she sees that
neither do baby rats she can't stand the tests
she can't stand tests
on baby rats
she can't stand tests
on baby rats
she's got 10 causes sewn on to her sweater
she'll never talk to me I think she knows my shoes are
leather,
if all the landfills have filled up how could she think of
me
and if I don't recycle cans will she ever hold my hand
see doesn't wear makeup of course she doesn't need it
but more than that she sees that
neither do baby rats she can't stand the tests wo-oh oh
she can't stand tests
on baby rats
she can't stand tests
on baby rats
the weight of the world's not resting on your shoulders
don't trivialize your zits your time will come to save the
planet
look out the sky is falling instead of hearts and bombs
aren't letters that says let's be friends
look out the sky is falling instead of hearts and bombs
aren't letters that says let's be friends
look out the sky is falling instead of hearts and bombs
aren't letters that says let's be friends
bombs aren't letters that says let's be friends
