"Look At Me"

(Look at me, come at me)
Breath, capture what you see
(Look at me, stare at me)
Pause, take my energy

(Look at me, come at me)
Bring your focus onto me
(Look at me, stare at me)
Seal it in your memory

I don't think that this will last
though I'm not ready to let go
Time flies by so damn fast
Your pressure starts to show
Impossible to tell you no
impossible to let you go
This feeling fades away
Remember it like today

(Look at me, come at me)
Breath, capture what you see
(Look at me, stare at me)
Pause, take in my energy

(Look at me, come at me)
Bring your focus onto me
(Look at me, stare at me)
Seal it in your memory

Your skin's so soft and so warm
You have it all and I want more

(Look at me, come at me)
(Look at me, stare at me)
(Look at me, come at me)
Bring your focus onto me
(Look at me, stare at me)
Seal it in your memory
