"Heather In The Heather"

Heather in the heather
Lily in the paths
Walk the road together
Skipping hand in hand
I watch you in the water
You see me in the pond
We'll catch crickets and we'll
Feed 'em to the frogs
Even when the summer ends
We're still the best of friends

Heather in the heather
Lily in the paths
Since I don't remember
Other friends I've had
You will keep a secret
I won't tell a lie
Cross our hearts, not fingers
A needle in my eye
On the front porch swing
Tell me anything

Heather in the heather
Lily in the paths
We'll be friends forever
The best I'll ever have
