Nobody knew her name but she turned up just the same
There was a knock on the door, a thump on the floor
and the party turned insane as she called out her name

And then she walked in looking like dynamite
She said, "Now come along, Boogaloo through the night"
And by the way, she's moving well, dynamite
Might she not, with all she's got
She's got the whole town lighting up, dynamite
Nobody quite knowing what to do, wrong or right
But they all know Dyna is Dynamite and they're right

She hadn't been there long when she told us where she came from
There was a flash in the sky, a light in her eye and her dynamite light burned on
As the music went on and on and on and on and on and on and on and on and on and on and she walked in looking like dynamite
She said, "Now come along, Boogaloo through the night"
And by the way, she's moving well, dynamite
Might she not, with all she's got
She's got the whole town lighting up, dynamite
Nobody quite knowing what to do, wrong or right
But they all know Dyna is Dynamite and they're right

And then she walked in looking like dynamite
She said, "Now come along, Boogaloo through the night"
And by the way, she's moving well, dynamite
Might she not, with all she's got
She's got the whole town lighting up, dynamite
Nobody quite knowing what to do, wrong or right
But they all know Dyna is Dynamite and they're right,
they're right
And then she walked in looking like dynamite...
