Uprise - Stranded

[Verse 1]

Running from what you want
I just needed space
and now I'm miles away.
I try to undo all my mistakes.
You showed me you're hurt
By the look of your face.
Everything went so wrong!
I hate what I've done
And who I've become.
I need you to show me
How far I've gone
From where you are!

[Chorus]

Stranded from your love
What I wanted..
No, it wasn't what I thought it was.
Stranded, searching for my way back
To where you are.
I am on my last breath
Don't leave me stranded.

[Verse 2]

Late at night I can still hear you
I can still feel you
When you're miles away
Cause you left your mark
When you stole my heart
You're all I want
And I'd do anything, anything for you.
Everything went so wrong
I hate what I've done
And who I've become
I need you to show me
How far I've gone from
Where you are.

[Chorus]

Stranded from your love
What I wanted..

No, it wasn't what I thought it was.
Stranded, searching for my way back
To where you are.
I am on my last breath
Don't leave me stranded.

[Verse 3]

You are what kept me alive
when I was miles away
Your love is better than life
You're all that remains.
You are what kept me alive
When I was falling away
Your love is better than life
No matter how far I've gone
From where you are.

Stranded from your love
What I wanted..
No, it wasn't what I thought it was.

[Chorus]

Stranded from your love
What I wanted..
No, it wasn't what I thought it was.
Stranded, searching for my way back
To where you are.
I am on my last breath
Don't leave me stranded. [2]

Stranded from your love
When you're miles away.
I am on my last breath
Don't leave me stranded..
